

Call For Abstracts Reminder . . .

Abstracts are now being collected for the selection of symposium papers and to develop the agenda for the *5th International Symposium on Gas Cleaning at High Temperature*. The symposium is being sponsored by the U.S. Department of Energy's National Energy Technology Laboratory (NETL) and the National Research Center for Coal and Energy of West Virginia University, and will be held on September 17-20, 2002, at the National Energy Technology Laboratory in Morgantown, West Virginia.

Symposium organizers are interested in papers addressing all aspects of gas cleaning and purification. Particular interest is placed on abstracts that discuss gas cleaning for gasification and combustion-based power generation, fuel cell systems, and industry processes.

Please e-mail your abstract as an Adobe Acrobat PDF file to confserv@netl.doe.gov by November 30, 2001 (2-week extension). For additional information and detailed instructions on the abstract format, please visit the NETL homepage at www.netl.doe.gov and select Events.
